

OHSAS 18001: 2007 Lead Auditor programme IRCA Certified Course #A16380

BUREAU
VERITAS

About NIST

NIST Institute, the leading course provider for UK based Health and Safety Qualifications in India, Middle East and Sri Lanka in association with Bureau Veritas, a global leader in conformity assessment and certification services, conducts IRCA approved and internationally recognized Lead Auditor Programme.

About Bureau Veritas

As an independent certification body, Bureau Veritas Certification provides a full range of certification and auditing services. Bureau Veritas' goal is to validate the conformity of management systems and processes of all kinds of organizations. Bureau Veritas conduct audits against recognized standards, which may include customer specific requirements, in the fields of Quality, Health & Safety, Environment, and Social Responsibility.

Why choose IRCA?

The International Register of Certificated Auditors (IRCA) is the world's original and largest international auditor certification body. IRCA approved training organizations offer certified training courses based on a wide range of management systems standards and industry sectors. IRCA certified training can help a candidate to demonstrate his/her competence as an auditor and go on to achieve professional recognition as an IRCA certified lead auditor.

OHSAS 18001 is a globally recognized assessment specification for occupational health and safety management system. This certification is a strong sign of commitment to occupational health and safety and helps you to stick out from the competition. OHSAS 18001 aids the organisation to control risk and to improve the performance with continuous progression in the management systems.

Learning Outcomes

IRCA Auditor courses are the accepted benchmark for management systems auditor training

Understand audit principles and how audits can be conducted effectively

Certification to OHSAS 18001 occupational health and safety management systems signals to your clients and stakeholders that your organisation is committed to protecting the needs of all your stakeholders

Conduct an effective OH&S GAP analysis

Understand how to improve an individual and overall risk-based audit plan

Understand and lead communications with the audit team during the audit

Understand compliance with various relevant regulations, legal necessities and industry codes of practice in relation to management system conformance

Identify the Potential Emergency Situations

To coordinate during the third party OH&S Certification audit.

Course duration: 5 days

Assessment: 2 Hour examination

Mode of training: Regular

There is a two-hour examination for this course. Electronic devices, including laptops and mobile phones, are not permitted into the examination room. Delegates will also be assessed on the basis of their progress throughout the exercises. Delegates who successfully complete both the examination and the continuous assessment will be awarded a certificate of Successful

Completion and will satisfy the formal training requirements for IRCA QMS Auditor Certification scheme.

On successful completion of the assessment certificate will be issued from BVC.
